

## THE WHIPPING POST

### **Hello fellow kinksters!**

Here we are in the third month of the newsletter. Hope that you are enjoying it and that it is beneficial to you in your 1740 and BDSM experience.

This month we have a new monthly article debuting. The article is written by our own Sultry Savvy. She will be telling us stories about observations she has made in the lifestyle and at our dungeon. It will be fun to see where her hot, nasty thoughts take us each month. This month she will be giving us a look into the new attendee experience.

### **Peter's Fetishes, by Peter Philia**

This month, I want to tell you how the VANILLA world defines phobias. According to economicexpert.com, a phobia is antonymic to a phobia. That part makes sense at least. The site goes on to define them as, "the love or obsession with a particular thing or subject." Having said that, here is this month's list of phobias. Enjoy!

Autovoxiphilia - Love of one's own voice

Arctophilia - Love of Teddy Bears

Apodysoiphilia - Desire to undress; nudism

So when combined, you have someone who likes to run around naked while talking to his or her teddy bear! Try it! You might like it!

### **Building Update**

Progress continues on the 1740 Club House. On April 3<sup>rd</sup>, a small crew gathered to start the "spring cleaning" process inside and out. Quite a bit of trash was hauled off of the back patio, and some in-depth scrubbing took place inside. Thank you to those who were able to help!

### **\*\*\*NOTICE\*\*\***

Unless conditions warrant otherwise please park in the parking lot behind the building.

### **\*\*\*NEWSFLASH\*\*\***

We now have a television in the lobby so that we can monitor weather conditions.

### **Art Work**

A new project is in the works! 1740 is looking for local fetish artists who would like to use the 1740 Club House as a "show case" for their art work. Ideally, the art work will be for sale by the artist. 1740 will not charge a commission for this, as the display of this art work adds to the décor and atmosphere of the facility. More news will be included in The Whipping Post as the project is finalized.

### **A First Experience at 1740, by Sultry Savvy**

*This is a compilation of comments from many new attendees and their first time experience at 1740*

I had a desire to see if this BDSM lifestyle was really for me. I have vanilla friends that are accepting of that part of me but do not understand it.

When I attended my first event I discovered a lot of things about myself. First and foremost is that I am not weird and there is nothing wrong with me. I learned that there really are people like me out there and they are terrific people. I have found somewhere that I can live my heart.

Before the first time I walked in the doors I was self conscious and nervous. I was so afraid that I would be the new person sitting in the corner hoping not to be noticed. Instead what I found was that 1740 is somewhere that I can be myself. No one has judged me regarding my looks, size, or the nature of my kinks. I can truly be myself and be accepted. My nervousness and apprehension was gone within five minutes.

When I walked into the dungeon room the first time I was giddy. I felt like I had been let loose in a candy store and could have any and all the candy I wanted. At the end of the night I did not want to leave. I knew I had found a home and family.

### **Meet your new Board Member**

We are proud to announce that Master Woo (Steven D.) has joined the Board. Master Woo has spent most of his adult years in the lifestyle. He has been a member of many different clubs in various locales, so brings a wide variety of ideas and experiences. He was a founding member of a very successful club in the Midwest and has many years of experience as a DM. We have all enjoyed his very hot action with his lovely sub. Welcome Master Woo!
